08. SEQUENCE
09. GIVE US THIS DAY
10. LINE BREAKER

Transmit Failure is Four Hundred Years' long-awaited sophomore release. In comparison to their previous full-length, Suture, Transmit Failure progresses to the next level musically, featuring a more produced and enhanced sound courtesy of producer J. Robbins. Bolstered by the rhythm section's taut dynamics, Four Hundred Years delivers their fiercely political invective in sputtered fits and starts.

The quartet ferociously slashes through ten charged rants, railing on social injustice and class inequality. Ragged, sharp vocals tear passionately into their political topics, while the guitars, bass, and drums roil in the background, providing the brawny heft that supports this band so well. A breakthrough album for the band, Transmit Failure provides listeners with a prime example of socially conscious hardcore that doesn't fail to deliver on the technical side of the bargain.
